1. INTRODUCTION

1.1. Background
The development of the higher education sector is of central importance to enable Sri Lanka to develop from a Lower-Middle Income Country (LMIC) to an Upper Middle-Income Country (UMIC). Recognizing this, the Government of Sri Lanka (GoSL) and the World Bank have agreed, as part of the Bank’s Country Partnership Strategy (CPS) FY17-FY20, to support the higher education sector through a Bank funded Accelerating Higher Education Expansion and Development (AHEAD) operation.

THE AHEAD PROGRAM
Accelerating Higher Education Expansion and Development (AHEAD) operation is organized into two components. The first is a Program Component that supports the national Higher Education Development Program (HEDP). The second is a systems strengthening, capacity building and technical assistance component that will assist GoSL to strengthen the higher education sector and achieve the objectives of the AHEAD program component. This second component will also cover monitoring and evaluation, policy analyses, program coordination and communication.

The implementing agency is the Ministry of Higher Education and Highways (MHEH). The MHEH will be assisted at the national level by the University Grants Commission (UGC) and the Sri Lanka Institute for Advanced Technological Education (SLIATE). The Operations Monitoring and Support Unit (OMST) of the MHEH will coordinate and support all AHEAD activities between the MHEH, UGC, SLIATE, Universities and Advanced Technological Institutes (ATIs).

1.2. Result Area Two: Improve the Quality of Higher Education
Objective: To increase the academic quality, and economic and social relevance, of higher education programs.

Sub-Result Area 2.1: Increase the proportion of Ph.D. qualified academic staff for the state universities.
The supply of qualified academic staff needs to be expanded urgently. The quality of academic staff is a central determinant of the performance of a higher education system. Yet, there is a severe scarcity of Ph.D. qualified academic staff in Sri Lankan universities. Out of approximately 5,000 academic staff, less than 50 percent are Ph.D. qualified. Among academic staff below 45 years of age only 24 percent have Ph.Ds. Of the academics below 35 years, only less than 10 percent have PhDs. Yet Ph.D. qualified staff are a necessary condition for the high performance of modern universities with their research, innovation and postgraduate teaching mandates. Sri Lanka needs to staff its universities with appropriately qualified academics as an urgent priority.

1. A sub-component under the ‘quality’ component is ‘Increasing Qualified Academics in universities’. Under this, AHEAD will assist HEIs to strengthen the quality of their academic staff through suitable PhD programmes. This scholarship program will be offered in collaboration with the UGC and NCAS scholarship schemes.
2. The allocations have been made to universities and undergraduate institutes on an equitable basis while also ensuring gender equity.
3. All PhD programs are expected to be done in English medium (unless under exceptional circumstances) on full time leave.
4. Funding will be provided for upto 36 months support towards completion of a three year full time PhD programs in overseas universities or full time Split-Site PhD programs.

1.3. Split-site PhDs
Under the split-site PhDs,

1. the candidates are mainly expected to register in a University other than which they are employed in, with exceptions granted under special circumstances (e.g. disciplines where only one Department or Faculty is available in Sri Lanka or where the Faculties/Universities have existing MOUs with foreign universities for Split- site PhD opportunities for staff),
2. all PhD programs are expected to be done in English medium (unless under exceptional circumstances) on full time leave,
3. candidate should visit the overseas/trainer university at least in two instances, where the total time period spent in the overseas university should exceed 12 months (this condition can vary depending on the provisions of the MOU or the university requirements of the Split-site program), and
4. PhDs should be followed on a full time basis. The candidates should be on full time leave from the Home University.

1.4. **Full PhD programs in overseas universities**

PhD programs in overseas universities will also be supported, within the given allocation. These programs should be of 3 year duration.

---

2. **DISTRIBUTION OF ALLOCATIONS**

Grants will be made available in four rounds, as two rounds each in years 2018 and 2019.

---

3. **FUNDING ALLOCATION**

Percentages of funding allocations for 2018 and for 2019 according to the discipline area are as follows;
